1 Introduction

This policy on the use of word processors in examinations and assessments is reviewed and updated annually, on the publication of updated JCQ regulations and guidance contained in the publications Access Arrangements and Reasonable Adjustments and Instructions for conducting examinations.

References in this policy to AA and ICE relate to/are directly taken from the Access Arrangements and Reasonable Adjustments 2021-2022 and Instructions for Conducting Examinations 2021 -2022 publications.

The use of a word processor in exams and assessments is an available access arrangement/reasonable adjustment.

(AA 4.2.1)

The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing him/her from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties.

The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

(AA 4.2.2)

Although access arrangements/adjustments are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question.

(AA 4.2.3)

Candidates may not require the same access arrangements/reasonable adjustments in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. ALS leads/SENCoS must consider the need for access arrangements/reasonable adjustments on a subject-by-subject basis.

(AA 4.2.1)

The Additional Learning Support lead/SENCo must ensure that the proposed access arrangement/reasonable adjustment does not disadvantage or advantage a candidate.

(AA 4.2.7)

The candidate must have had appropriate opportunities to practise using the access arrangement(s)/reasonable adjustment(s) before their first examination.

2 Purpose of this Policy

This policy details how Eltham College complies with AA (chapter 4) (Managing the needs of candidates and principles for centres), section 5.8 (Word processor) and ICE (sections 14.20-25) when awarding and allocating a candidate the use of word processor in examinations.

The term 'word processor' is used to describe for example, the use of a computer, laptop or tablet.

3 Principles for Using a Word Processor

Eltham College complies with AA chapter 4 *Adjustments for candidates with disabilities and learning difficulties* regulations and guidance as follows:

NOTE: Using a tablet or laptop computer in lessons from Year 9 onwards under the School's 'Choose Your Own Device (CYOD)' policy does not mean that a student can use a word processor in examinations and assessments unless it is confirmed that the student has a disability, learning difficulty, or meets some or all of the criteria listed in Appendix 1, and that the centre has a firmly established picture of need

4 The Use of a Word Processor

Eltham College: complies with AA chapter 5 *Access arrangements available* as follows:

The centre will

- allocate the use of a word processor to a candidate **with the spelling and grammar check/predictive text disabled (switched off)** where it is their normal way of working within the centre (AA 5.8.1)
- award the use of a word processor to a candidate where appropriate to their needs
- For example a candidate with
- a learning difficulty which has a substantial and long term adverse effect on their ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting (AA 5.8.4)
- only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
- not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
- consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
- Process access arrangements/reasonable adjustments at the start of the course, or as soon as practicable having firmly established a picture of need and normal way of working, ensuring arrangements are always approved before an examination or assessment (AA 4.2.4)
- provide the use of word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The centre will not

- simply grant the use of a word processor to a candidate because they now want to type rather than write in exams or can work faster on a keyboard, or because they use a laptop at home (AA 5.8.4)

Exceptions

The only exceptions to the above where the use of a word processor would be considered for a candidate would be

- in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- where the curriculum is delivered electronically, and the centre provides word processors to all candidates (AA 5.8.4)

5 Arrangements at the time of the assessment for the use of a word processor

A candidate using a word processor is accommodated in Computer Room 2 or other suitable room for all subjects requiring extended writing

- Invigilators in the Computer Room 2 room are fully trained in the use of laptops. Invigilators are fully experienced in the use of the laptop where students are concerned. They ensure that the student completes the information on centre number, candidate number, and exam paper reference number. They are also aware that the word processor cover sheet where required by an exam board is completed and the candidate's work is printed out in the candidate's presence.

In compliance with the regulations the centre

- provides a word processor with the spelling and grammar check facility/predictive text disabled (switched off) to a candidate where it is their normal way of working within the centre, unless an awarding body's specification says otherwise (ICE 14.20)
- ensures the candidate is reminded to ensure that their centre number, candidate number and the unit/component code appear on each page as a header or footer e.g. 12345/8001 – 6391/01 (ICE 14.22)

If a candidate is using the software application Notepad or WordPad these do not allow for the insertion of a header or footer. In such circumstances once the candidate has completed the examination and printed off their typed script, they are instructed to handwrite their details as a header or footer. The candidate is supervised throughout this process to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way.

- ensures the candidate understands that each page of the typed script must be numbered, e.g. page 1 of 6 (ICE 14.23)
- ensures the candidate is reminded to save their work at regular intervals. (or where possible an IT technician will set up autosave on each laptop/tablet to ensure that if there is a complication or technical issue, the candidate's work is not lost) (ICE 14.24)
- instructs the candidate to use a minimum of 12pt font and double spacing in order to **make marking easier for examiners** (ICE 14.24)

(ICE 14.25)

The centre will ensure the word processor

- is only used in a way that ensures a candidate's script is produced under secure conditions
- **is not used to perform skills which are being assessed**
- **is not connected to an intranet or any other means of communication**
- is in good working order at the time of the exam
- is accommodated in such a way that other candidates are not disturbed and cannot read the screen
- is used as a typewriter, not as a database, although standard formatting software is acceptable and is not connected to an intranet or any other means of communication
- is cleared of any previously stored data
- does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
- does not include graphic packages or computer aided design software unless permission has been given to use these
- does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking
- does not include speech recognition technology unless the candidate has permission to use a scribe or relevant software
- is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe

Portable storage medium

The centre will ensure that any portable storage medium (e.g. a memory stick) used

- is provided by the centre
- is cleared of any previously stored data

Printing the script after the exam is over

(ICE 14.25)

The centre will ensure

- the word processor is either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- the candidate is present to verify that the work printed is their own
- a word processed script is attached to any answer booklet which contains some of the answers
- **where an awarding body requires a cover sheet to be completed this is included with the candidate's typed script (according to the relevant awarding body's instructions)**

Appendix 1 Criteria Eltham College uses to Award and Allocate Word Processors for Examinations

1 Introduction

Pupils at Eltham College in Year 9 and above are permitted to use a laptop or tablet in class with the teacher's permission and instruction under the 'Choose Your Own Device' scheme. However, it is not school policy to let every pupil use one in lessons as a matter of routine. The decision as to whether a pupil uses a laptop or tablet in school is not a matter of pupil or parental preference.

2 Procedure

Generally, the need for a laptop in an examination should be indicated by a member of staff who teaches the pupil or by a specialist, who has an established working relationship with the school, as a result of diagnostic testing conducted in liaison with the school.

All laptop use has to be then agreed with the Deputy Head (Academic) and the relevant Head of Section., SENCO and communicated to the exams officer

A candidate may be awarded/allocated the use of a word processor in exams where he/she has a firmly established need, it reflects the candidate's normal way of working and by not being awarded a word processor would be at a substantial disadvantage to other candidates.

This may include where a candidate has, for example:

- a learning difficulty which has a substantial and long term adverse effect on their ability to write legibly
- a medical condition
- a physical disability
- a sensory impairment
- planning and organisational problems when writing by hand
- poor handwriting

The only exception to the above where the use of a word processor may be considered for a candidate would be

- on a temporary basis as a consequence of a temporary injury at the time of the assessment
- where a subject within the curriculum is delivered electronically and the centre provides word processors to all candidates
-

If a pupil wishes to use a laptop in exams, they must be a routine laptop user in class in the relevant lessons. They will have gone through the process described above and must satisfy some or all the bullet points above so that the centre has a firmly established picture of need

Arrangements for the use of word processors at the time of the assessment

Appropriate exam-compliant word processors will be provided by the IT department in liaison with the ALS lead/SENCO and the exams officer. In exceptional circumstances where the number of appropriate word processors may be insufficient for the cohort of candidates approved to use them in an exam session, the cohort will be split into two groups. One group will sit the exam earlier than or later than the awarding body's published start time. The security of the exam will be maintained at all times and candidates will be supervised in line with section 7 of ICE.
